Dear Mr. Chen, Ms. Chan and Mr. Jones:

Last week I sent Mr. Chen and Ms. Chan some documents related to CAA enforcement USEPA has done in Ohio on some poultry facilities there that I thought may be of interest (I'm forwarding that email with the attached documents for your reference).

Since coming across these documents, I was able to locate one of the people from USEPA Region 5 that worked on both cases. His name is Kevin Vuilleumier (copied here). I spoke with Mr. Vuilleumier about his experience working on these cases and he provided me with a wealth of information and insight that I believe may also be of interest to you in evaluating the Hickman operations in Arizona.

Mr. Vuilleumier mentioned that the different regional offices often do work together and that he would be willing to connect with you after the holidays to discuss this case.

I'm attaching the citizen complaint that was filed about the Hickman operations back in October to this message so that Mr. Vuilleumier has some background and the details about the facilities prior to any conversations he may have with you.

I'm also providing you with each others' contact information below. I hope you are willing and able to connect, as there seem to be some similarities in these poultry CAFO cases.

Many thanks for your work on this and happy holidays!

Sincerely:

Danielle Diamond

Ms. Chan and Mr. Chen

Please see attached. These documents just came across my desk and I thought you might find them of interest. One document relates to the national CAFO air consent agreement and the others are examples of CAA enforcement actions USEPA has taken in Ohio against poultry operations that failed to get new source review/Title V permits as major stationary sources, apparently both before and after the existence of the national CAFO air consent agreement.
